Drs. Shachindra & Bhawisha Joshi M.D. (Hom) through their teachings have emerged as original thinkers in many ways making several significant contributions to recent developments in homœopathy. Their pioneering work on noble gases, imponderables, nosodes and the animal kingdom have earned them international fame. You can share these insights during this weekend opportunity.

They are M.Ds. in Homœopathy with documented cases of cerebral palsy, chronic renal failure, asthma, thyroid disorders, pneumonia, PCOD, and epileptic seizures.

These cases have been regularly monitored pathologically and evaluated by specialists in the respective subjects.

They have a busy practice in North Mumbai as well as a Satellite practice set up in England & America.

They have also served as honorary doctors at the Mother Teresa’s Home for the Dying and Destitute (at Santacruz, Mumbai, 1996-1999) and as Educators at the Juvenile Diabetes Foundation, Maharashtra Chapter, for the past 15 years.

The Joshis’ Books:

“Homeopathy & Patterns in the Periodic Table come Alive.”
- Understanding of the Rows & Columns
- Cases from each element of the first three rows- Some new ideas re: Phosphorus, Sulphur, Oxygen, Fluorine, Chlorum
- A Chapter on Noble gases, Halogens & Imponderables
- Complete section on Salts

“Nosodes and Imponderables Come Alive”

In this book the main sensation behind the nosodes and imponderables are explained by Dr. Bhawisha and Dr. Shachindra Joshi. They have been engaged with the subject since 2003 and have since lectured and worked on the basic feeling of these remedies through the Sensation method.

The AHA (QLD) branch invites you to join us for a “sensational” weekend of learning with the “Joshis”, the lively and entertaining husband and wife team known affectionately as the “dynamic duo of homœopathy”. Learn from these masters of the highly acclaimed “Bombay Sensation Group”.
