**DR PHILIP
JAMIESON**

**FIONA
PROVAN**

Join Dr Philip Jamieson & Fiona Provan as they share fascinating research on the memory of water as well as recognition of ancient understanding.

Dr Philip Jamieson is a retired former academic researcher who continues to be published through Nexus magazine. He will present information related to his scientific article (with Marianne Schmidt) "the memory of water" - a dawning recognition of ancient understanding. He holds a great passion for research and has presented some fascinating insights.

Fiona Provan shares her knowledge gathered as a homoeopath (current AHA Qld branch president) as well as a keen interest in water from her role as zazen water partner manager.

Together they will present information that will be relevant and interesting for all homoeopaths!
